author of *UML Requirements Modeling for Business Analysts*

For a combination of reasons, I do not make my presentations available on web sites. However you are all welcome to download my presentation Decision Modeling for Success! from the below link and use it for your personal purposes. I will leave the presentation at that URL until June 30.

Should you have any questions about The Decision Model, feel free to contact me at any time. I do not claim to be an expert in this methodology, however I will answer any questions I am able to. If you like The Decision Model technique and find it valuable, spread the word so that we can provide better results and raise the stature of business analysts.

The presentation is available for download at: [www.DaoustAssociates.com/IIBA](http://www.DaoustAssociates.com/IIBA)
